

## APPLICATIONS

**Eni Alisma 32 PV** is an oil specifically designed for initial filling during acceptance testing. It provides also protection during storage, shipping and long stop of gas and steam turbines and turbocharges.

It is formulated with high quality base oils and specially chosen additives to provide very good antioxidant and anticorrosive properties.

## CUSTOMER ADVANTAGES

- Non-corrosive behaviour thanks to the presence of a vapour-phase inhibitor which provides corrosion protection
- Maximizes water removal system efficiency thanks to excellent demulsibility
- Ensures a long operative life thanks to a very good oxidation resistance

## SPECIFICATIONS & APPROVALS

- ISO 8068 TSA

## CHARACTERISTICS

Properties	Method	Unit of Measure	Typical
Appearance	APM 27	-	clear
Density at 15°C	ASTM D 4052	kg/m <sup>3</sup>	854
Viscosity at 40°C	ASTM D 445	mm <sup>2</sup> /s	32
Viscosity index	ASTM D 2270	-	111
Flash point (COC)	ASTM D 92	°C	230
Pour point	ASTM D 97	°C	-15

## WARNINGS

- The circuit and the tank are properly sealed to prevent leakage of the protective vapour and the entry of moisture.
