

APPLICATIONS

Eni Sic C 220 is a lubricant recommended for cylinders of air and gas compressors operating in severe conditions due to very high humidity content, provided that outlet temperature is not very high.

Eni Sic C 220 is also suitable for all machinery parts where a higher lubricating capacity is needed if compared with the one provided by a straight mineral oil.

CUSTOMER ADVANTAGES

- Very good lubrication even in presence of high humidity thanks to oiliness properties
- Compressor protection from sludge and carbon deposits thanks to very good thermo-oxidative stability
- Optimal lubrication ensured even in case of broad variations of the operative temperatures
- Effective protection from rust and corrosion

SPECIFICATIONS & APPROVALS

- ISO L-DGB

CHARACTERISTICS

Properties	Method	Unit of Measure	Typical
Appearance	APM 27	-	clear
Density at 15°C	ASTM D 4052	kg/m ³	894
Viscosity at 40°C	ASTM D 445	mm ² /s	220
Viscosity index	ASTM D 2270	-	96
Flash point (COC)	ASTM D 92	°C	262
Pour point	ASTM D 97	°C	-6
N.N.	ASTM D 974	mgKOH/g	1.9
