

APPLICATIONS

Eni H Lift 68 is a lubricant specially developed for use in hydraulic systems of elevators requiring a fluid with very high viscosity index.

This product is specifically formulated using an effective balance of additives to control oxidation, wear and rust.

CUSTOMER ADVANTAGES

- Ensures component protection over a wide temperature range
- Protects components reducing downtime
- Prolongs oil charge life extending re-lubrication intervals

CHARACTERISTICS

Properties	Method	Unit of Measure	Typical
Appearance	APM 27	-	clear
Density at 15°C	ASTM D 4052	kg/m ³	869
Viscosity at 40°C	ASTM D 445	mm ² /s	68.0
Viscosity index	ASTM D 2270	-	156
Flash point (COC)	ASTM D 92	°C	241
Pour point	ASTM D 97	°C	-36
